

Plug the A/C power cord into a standard A/C grounded wall outlet. 4. Plug the cord of the remote controller into the outlet on the back of the Fog Machine™ and turn the ON/OFF switch on the back of the Fog Machine™ to the ON position. It will take approximately 5 to 7 minutes for the Fog Machine™ to warm up. While the unit is unplugged and cooled down, unscrew the nozzle at the very front of the unit and clean out debris with vinegar and a pipe cleaner, making sure that the hole is free of clogs. 2. Empty all fog fluid from the machine. Add cleaning solution to the tank. Plug the unit in and let it warm up.
